

# Meeder Prime Money Market Fund

CLASS	SYMBOL	CUSIP	INCEPTION	EXPENSE RATIO	
Retail	FFMXX	58510R200	03/27/1985	Net: 0.47%	Gross: 1.05%

## Objective

The Fund seeks to provide income and capital preservation.

## Investment Strategy

The Fund pursues its objective by investing in high quality, short-term money market instruments such as securities backed by the full faith and credit of the U.S. Government, securities issued by U.S. Government agencies, or obligations issued by corporations and financial institutions. The Fund maintains a stable share price of \$1.00 while providing current income consistent with preservation of capital.

## Total Fund Assets

\$40.8 million

## Disclosure

**You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. The Fund may impose a fee upon sale of your shares or may temporarily suspend your ability to sell shares if the Fund's liquidity falls below required minimums because of market conditions or other factors. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.**

**Investors are advised to consider carefully the investment objectives, risks, charges and expenses of the fund before investing. The prospectus contains this and other information about the funds. Contact us at the address below to request a free copy of the prospectus. Please read the prospectus carefully before investing.**

Investment performance assumes reinvestment of all dividend and capital gain distributions. Returns for less than one year are not annualized. Performance data may reflect the effect of voluntary fee waivers or expense reimbursements that may change or end at any time. Without these waivers, performance would have been lower.

The 7-day Unsubsidized Yield is the annualized average income return over the previous seven days. The 7-day Subsidized Yield reflects fee waivers currently in effect. Without such waivers, yields would be reduced. Yield quotations more closely reflect the current earnings of the fund than total return quotations.

The gross expense ratio reflects the total fund operating expense ratio gross of any fee waivers or expense reimbursements as set forth in the current prospectus. The net expense ratio is the audited ratio of net expenses to average net assets as set forth in the fund's most recent annual report, which may include the effect of voluntary fee waivers or expense reimbursements.

The Fund operates as a retail money market fund and is limited to accounts beneficially owned by natural persons.

The Lipper Money Market Funds Index is an average of the total return of all Lipper funds in that category. The index measures performance after deduction of fund expenses and management fees. One cannot invest directly in an index.
