Disclosure

You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. The Fund may impose a fee upon sale of your shares or may temporarily suspend your ability to sell shares if the Fund's liquidity falls below required minimums because of market conditions or other factors. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.

The performance data shown represents past performance, which does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted.

Investors are advised to consider carefully the investment objectives, risks, charges and expenses of the fund before investing. The prospectus contains this and other information about the funds. Investment performance assumes reinvestment of all dividend and capital gain distributions. Returns for less than one year are not annualized. Performance data may reflect the effect of voluntary fee waivers or expense reimbursements that may change or end at any time. Performance prior to the inception date reflects the performance of a predecessor fund, the Institutional Class of the Meeder Prime Money Market Fund, which was distributed and transferred to the Institutional Prime Money Market Fund upon its inception.

The 7-day Unsubsidized Yield is the annualized average income return over the previous seven days. The 7-day Subsidized Yield reflects fee waivers currently in effect. Without such waivers, yields would be reduced. Yield quotations more closely reflect the current earnings of the fund than total return quotations.

The gross expense ratio reflects the total fund operating expense ratio gross of any fee waivers or expense reimbursements as set forth in the current prospectus. The net expense ratio is the audited ratio of net expenses to average net assets as set forth in the fund's most recent annual report, which may include the effect of voluntary fee waivers or expense reimbursements.

Not available in all states.

The **Lipper Money Market Funds Index** is an average of the total return of all Lipper funds in that category. The index measures performance after deduction of fund expenses and management fees.
