

Meeder Aggressive Growth

Objective

The Aggressive Growth Portfolio seeks growth of capital over a long-term time horizon with the goal of outperforming the broad stock market over a complete market cycle, while remaining fully invested in equities under normal circumstances.

Investment Strategy

Utilizing Exchange Traded Funds as the building blocks of a diversified portfolio, the Portfolio can shift between sectors, styles, global opportunities and capitalization ranges. The Portfolio is suitable for investors whose risk profile is such that they can tolerate volatility that is slightly greater than the stock market.

Portfolio Descriptions: Each Meeder ETF Portfolio is allocated among exchange-traded funds selected by the investment manager to meet specific investment objectives and risk tolerance levels.

Model Performance: Portfolio performance does not reflect the actual investment results of any individual client or account, but represents the performance of each individual model from its inception date to present. Individual accounts are managed consistent with the selected model, but performance for individual plans or participants may vary from the model.

Portfolio Performance: Investment performance assumes reinvestment of all dividend and capital gain distributions. Returns for periods less than one year are not annualized. Performance is calculated in U.S. dollars and is presented net of the maximum standard investment management fee of 1.25%. Actual fees may vary by platform. Performance does not reflect any additional charges for custodial, trust, plan administration or service fees.

Portfolio Benchmark: The Benchmark for the portfolio is the **Morningstar Aggressive Target Risk Index**. The **Morningstar Target Risk Index** family is designed to meet the needs of investors who would like to maintain a target level of equity exposure through a portfolio diversified across equities, bonds and inflation-hedged instruments. The **Morningstar Aggressive Target Risk Index** seeks approximately 95% exposure to global equity markets.

Risk Disclosure: The Portfolios are invested in exchange-traded funds, which are subject to substantially the same risks as those associated with direct ownership of the securities comprising the index on which the ETF is based. Exchange-traded funds are sold by prospectus. Carefully consider the investment objectives, risks and expenses of the component funds before investing. The prospectus contains this and other information about the funds.

Style Boxes: Equity style box analysis provided by Morningstar®. The style box reveals a portfolio's investment style. For equity funds, the vertical axis shows the market capitalization of the stocks owned and the horizontal axis shows investment style (value, blend, or growth). For fixed income components, the fixed income style box shows the credit quality of the bonds owned and the horizontal axis shows interest rate sensitivity as measured by a bond's effective duration (limited, moderate, or extensive).

Meeder Moderate Growth

Objective

The Moderate Growth Portfolio seeks capital appreciation for growth-oriented investors looking to minimize volatility.

Investment Strategy

Utilizing Exchange Traded Funds as the building blocks of a diversified portfolio, the portfolio seeks out the best opportunities for returns in the financial markets while managing the inherent risks of investing by shifting assets from equities to fixed income and money market securities when our analysis determines the risk/reward relationship of the stock market is unfavorable.

Meeder Balanced

Objective

The Balanced Portfolio seeks long-term growth of capital with a secondary objective of current income.

Investment Strategy

Utilizing Exchange Traded Funds as the building blocks of a diversified portfolio, the Balanced Portfolio seeks to achieve its objective using a maximum exposure of 70% to equity securities and a minimum exposure of 30% to fixed income securities. However, by utilizing our Defensive Investing strategy, the portion of the portfolio that is allocated to our Defensive Growth strategy (70%), may at times be invested in fixed income and/or money market securities, which will result in a fixed income allocation between 30% and 100% of the total portfolio.
