OVER THE LAST WEEK
AS OF DECEMBER 1, 2023

QUICK TAKE

The S&P 500 was up over 8% for the month of November, this partnered with a resurgence in market breadth has led to all trend and momentum indicators to be on. The short-term model is very strong.

As of late, the market is pricing in a higher likelihood of a fed rate cut in the next 6-12 months. This has led to positivity within the intermediate-term model.

Despite improving industry-level trends, the long-term model is still in negative territory. U.S. equity valuations are still slightly elevated, which continues to be a headwind for the model.

A Closer Look at Our Tactical Positioning Targets

Each day, Meeder analyzes and ranks over 70 different factors from our short, intermediate, and long-term models. The dynamic statistical model incorporates factors covering macroeconomic, fundamental, trends and technical analysis to estimate the potential reward and marketplace risk of the equity markets. The Meeder Spectrum, Muirfield, Balanced, Moderate Allocation, and Conservative Allocation funds utilize this strategy for the Defensive Equity portion of their portfolios. The Defensive Equity Strategy guides the allocation of each fund's equity sleeve and the actual proportion of equity investments in any fund will vary depending on the investment objectives of the fund.

DEFENSIVE EQUITY SNAPSHOT

Fully Invested (More Favorable) Fully Defensive (Less Favorable)

DEFENSIVE EQUITY ALLOCATION

UNDERSTANDING THE DEFENSIVE EQUITY SNAPSHOT

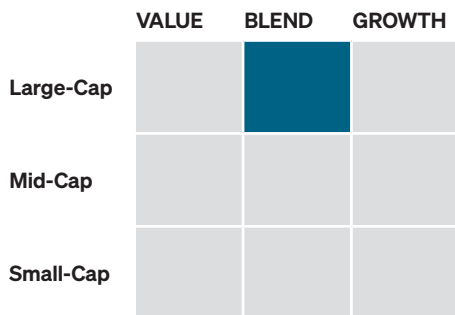

The vertical axis of the grid combines the scores of our long-, intermediate-, and short-term models to arrive at the reward value for the stock market. The horizontal axis represents the model's internal measure of stock market risk. The reward value is divided by marketplace risk to arrive at our recommended percentage of Net Equity Exposure.

MEEDER FIXED INCOME STRATEGY

The Meeder Fixed Income Strategy allocates the fixed income component of our Meeder Dynamic Allocation, Global Allocation, Balanced, Moderate Allocation, Conservative Allocation, and Total Return Bond Fund between U.S. Government and agency securities, investment-grade bonds, high-yield corporate bonds and international debt. Employing a multi-factor model, the strategy covers both asset class and duration of fixed income securities held by the funds.
